

In re: Appln No. 10/642,560
Amendment dated October 26, 2005
Reply to Office action of October 17, 2005

Remarks

Claims 1-35 were pending prior to the present amendment. Upon entry of the present amendment, Claims 1-30 are canceled, 31 and 34 remain pending, wherein Claims 32, 33, and 35 are amended claims to correct for the erroneous inclusion of claims from within multiple classes. The canceled claims are modified as new claims, all dependent on independent claim 31. Because only one independent claim is pending and the total number of claims is the less than the prior largest number total claims in the application to date, it is believed that no additional claim fees are required.

35 USC 121; Election / Restrictions

The Examiner cited that the claims fall within multiple distinct classes due to the claims being drawn to compositions, processes of transferring heat, processes of transferring electrons, and insitu complexing of a coating compound. Where the Applicant has not traversed, Applicant thanks the Examiner for the careful examination that uncovered these errors. Applicant has met this objection by amending the appropriate claims to eliminate all references to classes except for composition. Because the Examiner's objection has been overcome, Applicant respectfully requests withdrawal of this rejection.

Summary

Applicant respectfully submits that the presently pending claims have overcome the Examiner's objections. Accordingly, Applicant respectfully request allowance of the pending claims. Should the Examiner require any further information or wish to discuss any aspect of this Response, Applicant respectfully request that the Examiner contact the undersigned at the telephone number listed below. It is believed that no fees are required for this filing.

Respectfully submitted,
Michael Gurin
